

Working to Make Health Care Affordable

“With many challenges facing our health care system, it is essential that Congress works to improve access to affordable and quality health care, while strengthening the relationship between patients and their doctors.

“We need fiscally responsible health care reform that expands affordable coverage without sacrificing quality of care and does not establish a government-run, one-size-fits-all program.

“Families across Riverside County deserve reform that puts patients, transparency and their health first.”

- Congresswoman Mary Bono Mack

Congresswoman Mary Bono Mack meets with pathologists at Eisenhower Medical Center, seeing firsthand the work that is being done to expand and improve health care service to residents of the Coachella Valley.

Congresswoman Mary Bono Mack's HEALTHCARE REFORM PLAN:

Protect the Doctor-Patient Relationship

Any health care proposal must ensure that medical decisions are made by patients and their doctors, not Washington bureaucrats, and protect every American's freedom to choose the health care plan that best meets their needs.

Lower Health Care Costs

Among the ways to make health care more affordable for all Americans, we must implement insurance reforms, allow families to keep their coverage, regardless of a change or loss of job, and let small businesses band together to buy more affordable, high-quality care for their employees.

Expand Access to Quality Care and Coverage

To build a healthier, stronger America, we should enact reforms that make health care more accessible to all Americans, such as by offering incentives for small businesses to provide coverage for their employees; enhancing Health Savings Accounts; and helping low-income families use public funds to purchase private health insurance plans.

Invest in Prevention and Wellness Programs

Investing in prevention and wellness programs, in addition to developing new treatments and cures, will save billions in health care costs in the long run and improve quality of life.
